Respected Father, sister, teachers and my dear friends. Today I will say a story. The title of my story is A Hare and Tortoise. A hare and a tortoise were fast friends. But one day they had an argument about who was faster. They decided to run a race to find who was better. Next morning the race began. As everyone knows, the hare ran very fast but the tortoise walked slowly. After sometime, hare looked back and the tortoise was far behind. The hare decided to take rest for some time and run again. The hare slept. The tortoise walked slowly and crossed the hare. The hare woke up suddenly and saw that the tortoise was nearing the winning post. The hare started to run. But, the tortoise won the race.
The Moral: The slow and steady wins the race.
Thank you and have a nice day.
